REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the art to detect and control the temperature as is instantly claimed noting the control of the plane of the melt. The prior art gives no motivation or reasoning to use such a detection parameter and control of said parameter to improve growth. The art controls the entire temperatures of the melt and does not state that mere control of a plane of the melt will be effective in controlling the crystal growth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
